I am a full-stack web developer with two years of professional experience primarily using Django. Having experienced modern front-end frameworks such as React I would like to pursue a role with a greater front-end focus. With a personal interest in UI/UX design, Adobe Photoshop and XD and almost eight years of experience in specialised, customer-facing roles, I am excited to work in a diverse, technical team collaborating on exciting and impactful projects.

Education and Training

Level 5 Diploma in Web Application Development - Distinction
Code Institute - Ofqual
July 2022

A Levels

Music Technology, Music, Physics, Biology

GCSEs

11 of grade C or above including Maths and English

Experience

Comparison Creator

November 2022 - Present

Developer

Cwmbran, Wales

🌐 <https://www.linkedin.com/company/comparison-creator/mycompany/>

Key Responsibilities

- Full stack development using Django, Python, javascript, CSS, HTML, Bitbucket, SQL, Ubuntu.
- Agile development methodology using Kanban, Teamwork and Azure DevOps.
- Advanced from Junior Developer role to Developer in May 2023, adopting additional responsibilities such as managing pull requests, assisting other developers and system architecture design.

Achievements

- Key role in migrating legacy Django systems (version 1.3-2.2) to version 4.2.
- Major performance improvements utilising multithreading.
- Improved scalability, code hygiene and development standards through centralising product code.
- Greatly improved the internal commercial teams' reporting and utilities.
- Improved system monitoring by implementing Sentry, Updown and internal change logs in collaboration with our senior developer.

Waitrose & Partners

September 2015 - June 2021

Fruit, Veg and Horticulture specialist

Monmouth, Wales

Ceritech Audio

July 2013 - March 2015

AV Sales Consultant

Monmouth Wales

Interests & Additional information

I am a passionate musician and play the flute (grade 7) and guitar to a high standard as well as several other instruments.

I am an avid climber and particularly enjoy the combination of problem-solving with both strength and flexibility training.

I enjoy reading, especially sci-fi and fantasy works.

I hold a full UK driver's License.
